

A

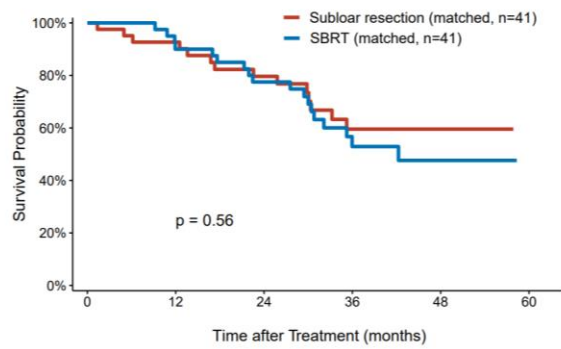

Overall Survival: PS-matched analysis

—	41	38	32	17	10	0
—	41	38	32	15	8	0

B

Recurrence-free Survival: PS-matched analysis

—	41	37	30	16	10	0
—	41	36	31	14	8	0

S5 Fig. Propensity score (PS)-matched survival analysis of the two groups, subloar resection versus stereotactic body radiation therapy (SBRT): (A) overall survival and (B) recurrence-free survival.
