S11 Fig. Patients' survival for different molecular subtypes based *TP53* mutation. (A) Kaplan-Meier curves for progression-free survival of patients in different subtypes according to the dynamic changes of *TP53* mutation. (B) Kaplan-Meier curves for overall survival of patients in different subtypes according to the dynamic changes of *TP53* mutation. CI, confidence interval; NR, not reached; OS, overall survival; PFS, progression-free survival.
